

Understanding your performance

- Strengths**
- Employee Experience
 - Search
 - Values & Proposition

- Weaknesses**
- Content
 - Candidate Experience

Volvo has some excellent strengths around key areas.

The employee experience is well defined, values and proposition can be clearly identified by prospective talent and your search optimisation is high (as we would expect with a strong B2C brand).

Areas for improvement which will help develop a ready pipeline of informed applicants should focus around content development and enhancing a social strategy to support this.

Ericsson and Saab both display strengths in these areas.
